FAQs About 3kW Solar Panel System How much I can save through solar subsidy on a self-consumption solar plant? If you are considering solar for self-consumption, the subsidy can reduce the price of your 3-kilowatt solar panel system in India by up to Rs. 54,000 (Rs. 18,000 per kW). The CFA calculation depends on the type of your solar system and the ...

Choosing the Right Number of Solar Panels. Now that you have the total panel wattage required, divide this number by the individual wattage of your chosen solar panel model. This will give you the approximate number of panels needed. For instance, if you opt for 400-watt solar panels: $\text{Number of Panels} = \frac{\text{Total Panel Wattage}}{\text{Solar Panel Wattage per}}$

This complete solar combo includes high-efficiency solar panels, solar inverter, mounting structure, wires, and other accessories. The 1 kW On Grid solar solution even connects to the government electricity, hence called Grid-tie system. You can export extra electricity to the government with solar net-metering.
