

17-hole solar light storage box

How many lumens are in a solar light box?

Measuring 7cm x 4cm and 3cm deep (the box without the light is 2cm deep), these light boxes come complete with AA batteries (NI-MH 300mAh 1.2V) and 3 warm white LED lights emitting 5 lumens of light. Featuring waterproof on/off switches, the light boxes can be used in any solar light with the same opening size.

Can a solar light box be used in any solar light?

Featuring waterproof on/off switches, the light boxes can be used in any solar light with the same opening size. Please note - depending on the type of solar animal you have, the small plastic tabs at either end of the replacement solar LED light box may need to be snapped off; this can be done easily with a pair of pliers.

Are plastic storage boxes safe?

Plastic storage boxes are a reliable, sturdy and simple way to store your items safely. Keep all of your items in one place and keep a clutter-free home! Safe to use in the bedroom, living room, attic, basement, or outdoors, our plastic storage boxes with secure lids will help protect your items from the elements.
