

# 500v battery Cook Islands

What is the electrical current in the Cook Islands?

The electrical current in the Cook Islands is 240v AC 50Hz, so if you are coming from a country such as in the Americas, your electrical devices will either have a 110v/240v switch on the item or you will need to make sure your travel adapter also converts voltage.

Do you need a travel adapter for the Cook Islands?

Whenever travelling to any new country, one of the essentials is making sure you can use your electrical devices. Do you have the right travel adapter for the Cook Islands? The Cook Islands' power outlets are Type I (i), which is good news for people travelling from New Zealand, Australia and China who all have the same type of power outlet.

What type of plugs and sockets are in the Cook Islands?

In the Cook Islands, the power plugs and sockets are Type I. It has three flat pins: two angled ones and one straight one. Note that some appliances don't have that straight bottom pin but they are still compatible with the Cook Islands electrical outlets.
