Where is Qatar's first solar power plant?

Qatar's first solar power plant, built by Chinese companies, was put into operation on Tuesday, marking a milestone for the country in energy transition. The 800MW Al Kharsaah Solar Power Plant, located in the desert area about 80 kilometers west of its capital Doha, is one of the largest in the Middle East.

Who is Qatar Solar Energy?

Toggle Sliding Bar Area Qatar Solar Energy With more than 15 years of research and development with the board members in the solar photovoltaic industry, QSE has become the first vertically integrated PV manufacturer in the MENA region, producing silicon ingots, silicon wafer, PV cells up to the end product «PV modules».

Where is Al Kharsaah solar power plant located?

The 800MW Al Kharsaah Solar Power Plant, located in the desert area about 80 kilometers west of its capital Doha, is one of the largest in the Middle East. With a total investment of \$417 million, it is the first non-fossil fuel power station in the country endowed with petroleum and natural gas.

Who owns Al Kharsaah solar power project?

The 800MW Al Kharsaah solar power project was inaugurated in 2022. Credit: Sungrow Power Supply Co. Al Kharsaah is an 800MW photovoltaic (PV) power project located in the Al-Kharsaah area of Qatar. It is owned by Siraj Energy, Marubeni and Total.

Why should Qatar invest in a solar power plant?

The power plant can supply 10% of the country's peak energy consumption and help to avoid 26 million tonnes of carbon emissions over its operational life. It also reduces the reliance on gas for power generation, diversifying Qatar's power sources. Total and Marubeni won the solar project through a competitive tender process.
