With more than 25 years of experience in the design and manufacture of distribution and electrical power products in the industrial, commercial and mining sectors, Adria Power Systems is a leader for whom its loyal customers place their entire confidence in the implementation of the best possible solutions adapted to their own situation.

What types of solar power systems are available in Canada?

Solar power equipment, complete solar power systems, and turnkey solar power solutions for Canadian homeowners, commercial businesses, agriculture, remote applications, and more. Off-grid, grid-tied, and hybrid solar power systems.

Who is Canadian Solar?

It has grown into one of the world's leading manufacturers of solar photovoltaic modules and provide comprehensive solutions for solar energy and battery storage. Canadian Solar is also a developer of utility-scale solar power and battery storage projects with a geographically diversified pipeline in various stages of development.

What business segments does Canadian Solar have?

Canadian Solar has two business segments: CSI Solar and Recurrent Energy (formerly Global Energy). Canadian Solar's PV panel modules have very strong attractiveness in terms of their cheap price. This allows us to sell products to small enterprises. We use these panels in our installations because they are really good products.

How many employees does Canadian Solar have?

It has more than 18,500 dedicated employees to strive each day to make this mission a reality. Canadian Solar has two business segments: CSI Solar and Recurrent Energy (formerly Global Energy). Canadian Solar's PV panel modules have very strong attractiveness in terms of their cheap price.

How does Canadian Solar ensure a safe supply chain?

Canadian Solar closely examines our supply chains to ensure goods imported are not mined, produced or manufactured, wholly or in part, with prohibited forms of labor, i.e., slave, convict, indentured, forced or indentured child labor. Copyright © Canadian Solar. All rights reserved
