AGR was founded in 2011 to address the early FiT solar and medium-scale wind markets in the UK, with a commitment to renewable energy projects that tackle the global issues of energy security and climate change. Over the last decade, we have grown steadily and built up a team of experts with a track record of delivering sophisticated projects across various technologies and ...

On an AGR nuclear power station boilers sit within the concrete outer layer of the reactor. This means that they cannot be replaced, so a lot of effort goes into maintaining them and ensuring they continue to do their jobs throughout the life of the power station. At the bottom of each boiler, large gas circulators pump high-pressure carbon ...

Dorman - Help Power Steering Caps - Power Steering Sealing Washer Assortment Part No. 82540 If it is the on board line is the seal really something special? I actually thought they were flared fittings, but I never looked that close. If it is a seal, it is pretty crazy that AGR can't send you one. Maybe try a hydraulics shop could help.
