

Aiko solar Christmas Island

Who is Aiko solar?

AIKO is a world-leading new energy technology company that focuses on R&D and manufacturing of PV core products and integrated solutions for power generation, storage, usage, providing customers with solar cells, ABC (All Back Contact) modules and scenario-based solutions. Multi-application solutions to fulfill various solar energy demands.

What is a Aiko solar cell?

AIKO is known as one of the first manufacturers to mass-produce solar panels with ABC (All Back Contact) solar cell technology. This technology involves placing both the positive and negative metal contacts to the rear of the solar cell, whilst they would normally be one contact on either side. This design has a few advantages:

How many factories does Aiko solar have?

AIKO now has 6 manufacturing plants in China and 3 R&D centres in China and Europe. AIKO has also established 20 global branches with over 15,000 employees around the world. Aiko Solar estimate their current manufacturing capacity is approximately 35GW per year for TOPcon cells and 100GW for ABC cells.

How are Aiko solar panels priced?

Aiko solar panels are priced towards the middle of the market. The costs are indicative wholesale costs that would be available to a solar panel installer (not an end customer) Please note there are many factors that go into a solar system quote including other inverters, panel mounting structure, labour, freight and other system components.

Is Aiko solar a good choice?

The Aiko Solar product is cutting-edge. Because it is a leading technology, it is also considered a premium option for people. However, in contrast to other high-tech offers that have come in the past, the price point is not that much different from the standard modules, such as the older types on the market.

How long do Aiko solar panels last?

All Aiko's main solar panels in the Neostar and Comet series offer a 30 year performance warranty degrading a 0.35% after year 2. This means they will deliver at least 90.6% of their nameplate value after 25 years and 88.85% after 30 years.

Das Aiko Solar Neostar 2S+ 455W (AIKO-A-MAH54Db) Solarmodul ist die ideale Lösung für alle, die eine Kombination aus hoher Leistung, zuverlässiger Langlebigkeit und ansprechendem Design suchen. Es ist perfekt geeignet für anspruchsvolle Haushalte, kleine Dächer sowie große Solaranlagen, die den maximalen Ertrag aus ihrer Investition ...

Aiko solar Christmas Island

AIKO has signed an agreement with Segen, the UK's leading distributor of solar PV and energy storage systems, for the supply of its innovative, high efficiency ABC (All Back Contact) modules to ...

Aiko Solar has been celebrating its 10th anniversary in 2019 and has become the largest merchant solar cell producer in the last few years, focusing on high-efficiency cells, notably mono-PERC ...
