

Aiko solar Slovenia

Who is Aiko solar?

AIKO is a world-leading new energy technology company that focuses on R&D and manufacturing of PV core products and integrated solutions for power generation, storage, usage, providing customers with solar cells, ABC (All Back Contact) modules and scenario-based solutions. Multi-application solutions to fulfill various solar energy demands.

Where is Aiko solar located?

Relying on independent creation and innovation, Aiko solar gradually masters the world-leading core technology in the PV industry and has obtained lots of national patents. Guangdong Aiko Solar Energy Technology Co., Ltd. is located at No. 69 Area C Sanshui Industrial Park, Foshan City Guangdong Province.

What is Aiko smart energy?

AIKO's smart energy solutions integrate the philosophies of zero carbon, and craftsmanship to redefine energy for the modern era, allowing the construction of a greener, safer Carbon-Free city. Our Core Values Pursue Cutting-Edge Technology Redefine Photoelectric Efficiency and Quality Aesthetics Build Partnerships for [...]

Why is Aiko Solar a leader in cell technology?

Aiko Solar has been a leader in cell technology due to its innovative research, patent applications, and technology preparations. The company understands the importance of innovation for its survival.

What makes Aiko unique?

AIKO has established partnerships with leading suppliers, and all main equipment is tailor-made. AIKO integrates process/manufacturing tech with the industrial Internet, IoT, and AI, maintaining industry-leading output per capita.

What is Aiko PERC equipment?

AIKO leads R&D of tubular PERC equipment for P-PERC era and core equipment for ABC cells in N-era, achieving synchronized development of process and technology, facilitating swift transitions to mass production from the lab. AIKO has established partnerships with leading suppliers, and all main equipment is tailor-made.
