

Aleo was founded in 2001 and is now considered the most trusted manufacturer of solar modules. All our products are manufactured at the aleo factory in Prenzlau, Germany. We follow strict quality principles to make solar energy ...

aleo has been manufacturing solar panels in its native Germany since 2001. Performance and reliability are our main priorities. Since our inception, we've been working to promote solar at a global scale, while maintaining the values of our client community.

As German solar pioneers, we are absolute experts in the construction of rooftop modules. But we thought ahead early on and started to take the possibilities of our technology to new levels. Today you will find modules for the classic rooftop system, as well as solar roof tiles and unusual products for solar construction.

Have you already thought of a solar carport or a patio roof with semi-transparent solar modules? If you are building a new one, our Solrif modules are suitable or you can integrate transparent solar modules into the facade of the building.

Join us in a journey to change the world. aleo has been manufacturing solar panels in its native Germany since 2001. Performance and reliability are our main priorities. Since our inception, we've been working to promote solar at a global scale, while maintaining the ...
