

# Algeria orana battery energy storage system

What is the Orana battery energy storage system (BESS)?

This funding will support the construction of the Orana Battery Energy Storage System (BESS), a project that will add over 1,660MWh of storage capacity to the National Electricity Market (NEM). Akaysha's Orana BESS is the largest BESS (four-hour) in the National Energy Market at 415MW/1660MWh. Image: Akaysha

What did akaysha energy announce about Orana battery energy storage system?

Akaysha Energy has announced the closing of AU\$650 million financing for its Orana Battery Energy Storage System (BESS) project, which is one of the largest four-hour batteries globally.

Where will Orana battery energy storage be installed?

The battery system will be built near Wellington in NSW. The lenders include ANZ, Commonwealth Bank and Westpac alongside eight international banks. The Orana battery energy storage system to be installed near Wellington will have a maximum output of 415 megawatts and four hours of storage capacity, making 1660 megawatt-hours.

What is akaysha energy's Orana Bess project?

Following this approval, Akaysha Energy has begun an extensive consultation process with key project stakeholders to develop Management Plans appropriate to the Orana BESS project. Discover Akaysha Energy's Orana Battery Energy Storage System (BESS) project, advancing renewable energy storage for a sustainable future in Australia.

Is akaysha's Orana project a good example of battery storage?

Nick Carter, Akaysha's CEO and Managing Director says the Orana project, innovative offtake solution and debt financing is an incredible example to the battery storage market not only in Australia but also globally.

Who is delivering the Orana battery system?

The Orana battery system will feature Tesla Megapack technology while the balance of plant will be delivered by Consolidated Power Projects Australia. The debt raise has been provided by a group of 11 domestic and foreign banks including ANZ, Commonwealth Bank and Westpac.

EnergyAustralia has today announced an innovative 12-year "virtual toll" offtake agreement with Akaysha Energy, backed by its Orana Battery Energy Storage System (BESS), due to commence commercial operations in 2026.

[Sydney, 14 October 2022] AMPYR Australia Pty Ltd (AMPYR) and Shell Energy Australia (Shell Energy) have signed a joint development agreement for a proposed battery energy storage system strategically located in Wellington (the Wellington BESS), Central West New South Wales (NSW). The target capacity of the
