

Algeria solar energy panel factory

Who owns a solar panel factory in Algeria?

Image by Ministry of Industry. Algeria's minister of industry Ahmed Zeghdar and the minister of renewable energy Benattou Ziane have inaugurated a solar panel factory in the province of Ouargla with an annual capacity of 180 MW. The factory is owned by Zergoun Green Energy.

Is a solar panel production unit operational in Algeria?

A solar panel production unit is operational in Algeria. The factory was recently inaugurated by Zergoun Green Energy. It was attended by officials from the Algerian Ministries of Industry and Mines, and of Energy Transition and Renewable Energies.

Will Algeria build a solar PV plant?

The state owned utility for electricity and natural gas distribution in Algeria has signed 19 contracts with local and international companies to construct solar PV plants. In making the announcement recently, the government said the project to produce 3,000 MW of solar PV energy is part of its Renewable Energy Development Programme.

How many solar panels are there in Algeria?

"In total, Algeria has an assembly capacity of 500 MW for solar modules, which is expected to increase to 600 MW to 700 MW by the end of 2025," said Clean Power's Bakli. Alongside Zergoun, the manufacturer Laguna Solaire has 200 MW of annual capacity for solar panel production in Algeria.

How can Algeria achieve its energy objectives?

Algeria is putting in place major means to achieve its energy objectives, notably the production of electricity from solar energy. According to the first annual report of the Commissariat for Renewable Energies and Energy Efficiency (Cerefe), two new factories for the production of solar panels will soon see the light of day in Algeria.

How much does solar power cost in Algeria?

Algeria's Hamdi Eurl won two 80 MW plants and domestic PV panel maker Zergoun, alongside Ozgun, secured 80 MW in Guerara. The 19 projects represent an investment of EUR1.8 billion (\$1.96 billion) and the solar power prices proposed by the bidders ranged from EUR0.54/W to EUR0.81/W, with an average price of EUR0.625/W.

.REUTERS Nov 23, 2009 Oil and gas producer Algeria is to create a sheep farm to accomplish solar panels as matter of a necessitate to sign 5% of its electricity from renewable energy by 2015, sway media reported. Greatest of Algeria falseness in the Sahara stop, a characteristic that has involved immersion from basis European companies ...

Algeria solar energy panel factory
