own income ...

The division of powers in Costa Rica establishes three distinct branches: the executive branch, the legislative branch and the judicial branch. Costa Rica has had democratic stability since 1949. It is the only country in the Central American region without an army (along with Panama) and its constitution was written to ensure that it would never have one.

On the other hand, local purchasing power is 68% lower in Costa Rica. In short, this means the same amount of money will get you 68% less in Costa Rica compared to the US. This is primarily due to the country's weaker currency as well as local taxes. But as shown in the figures above, non-natives will generally end up better off either way.

CostaRicaLaw was founded by Attorney Roger Petersen, the author of The Legal Guide to Costa Rica. The site was launched in 1997 and over the years has remained as a valuable source of information for individuals or entities that are considering retiring, living, investing or doing business in Costa Rica.
