Is Madagascar ready for solar power?

With all regions of Madagascar enjoying over 2,800 hours of sunlight per year, the Grande Ile is the perfect location for development of solar power, with a potential capacity of 2,000 kWh/m²/year. The Government is counting on this potential to fulfill its objective of providing energy access to 70% of Malagasy households by 2030.

What is Scaling Solar in Madagascar?

Madagascar is currently the fifth country in Africa in which a Scaling Solar tender process was launched, after two tender processes in Zambia, one in Senegal, and another in Ethiopia. It is also the first Scaling Solar project to include solar energy storage requirements by pairing solar with batteries.

Is Alltech a good installer?

Alltech is a fantastic installer. They are used to working on more commercial installs so a home install was no problem. They were very clear and straight shooters. The work was professional. Later on there was a problem with one of the panels. They diagnosed the issue the next day and replaced the panel at no charge to me.

Alltech Solar has been building green since 1995. We are dedicated to providing top quality installation and customer service direct to homeowner or business to business, through 23 years of construction experience. INFORMATION. Mailing address. 4079 Governor Dr, #307. San Diego, CA 92122
