power on and your business moving forward.

Kenya has had a taste of the consequences of high costs of electricity and erratic electric power generation. Droughts experienced in recent years had driven water heights in major dams to precarious levels, that power industry authorities were left with no other conceivable choice but to rely on imported fuel to produce electricity. High cost...

Altaaqa Global. Altaaqa Global has been selected by Caterpillar Inc. to deliver multi-megawatt temporary power solutions worldwide. We own, mobilizes, installs, & operates efficient temporary independent power plants (IPP's) at customer sites.

Highly efficient and reliable rental power generation products Electricity is the lifeblood of business. Without it, refineries cease to function, mining stops, and manufacturing assemblies grinds to a halt. All these greatly affect a nation's growth. The ability of an electric utility power line to perform at its peak has a profound effect on your...

The Falkland Islands, a British overseas territory in the south-west Atlantic Ocean, was subjected to a bitter war with Argentina in 1982. One of the most damaging legacies of the war for the people of the Falklands was the littering of their homeland with landmines.. Since inception, SafeLane Global has been working alongside Her Majesty's Government to systematically ...

Crisis Geography: The Falkland Islands, which is located approximately 300 miles off the east coast of Argentina, comprises two main islands, i.e. East Falkland and West Falkland, as well as several smaller islands. The Falklands geography, represented by rugged coastlines, rolling hills, and monotonous spaces, played a significant role in the events of the conflict. The ...
