

Americans make their own solar panels

Who makes American-made solar panels?

American-made solar panels may not always come from American companies, but they are built by American workers. Here's more information about five of the biggest, best companies that make solar panels in the USA. The top five solar panel manufacturers in the U.S. are First Solar, Qcells, Silfab, Jinko Solar, and Mission Solar.

Why should you choose a solar panel that is made in America?

Choosing a solar panel that is made in the United States supports both American manufacturing and American jobs. Because these panels are designed and tested in the U.S., the specifications provided are true to the environment that you will use them in most of the time.

Are qcells solar panels made in America?

Although not all of their panels are American-made (at least, not yet), you'll still be supporting American manufacturing by choosing Qcells. Other notable names in American solar manufacturing include Solar4America, Silfab Solar, Heliene, Jinko Solar, and Mission Solar. Here's the full list, according to the DOE, as of July 2024:

Should you buy American solar panels?

Buying American solar panels isn't just a matter of patriotism. President Joe Biden's Inflation Reduction Act of 2022 put billions of dollars in tax credits in play for solar developers and businesses interested in investing in alternative energy sources.

Is the US making more solar panels?

The US might be making more solar panels, but the rate at which people are installing them has slowed recently. After years of growth, Wood Mackenzie expects residential solar installations to fall 19 percent this year.

Why are solar panels so popular in America?

In addition to the United State's growing ability to manufacture the components of solar panels, policy incentives, such as those that result in financial benefit for solar customers and tariffs on imported solar panels, have contributed to the rise in companies manufacturing their solar panels in America and consumers seeking them.
