

Doris Rodríguez, partner at Hunton Andrews Kurth LLP and Gonzalo Ariel Viña, associate at Beccar Varela: "Argentina's enactment of law No. 27191 in October 2015, which set the goal of having 20 percent of Argentina's electricity consumption come from renewable energy sources by 2025, was the pivotal step in jump-starting Argentina's ...

share of renewable energy in the short-, mid- and long terms. The graph below shows the targets set by the Act in terms of renewable energy penetration. In order to reach the 20 % target for 2025, installed renewable generation capacity must increase to 10,000 MW from a current base of only 800 MW in operation in the country.

Argentina has the foundation to become a regional leader in the use of this technology. Source: Undersecretariat of Renewable Energy, Ministry of Energy and Mining, Government of Argentina. According to Wind Energy Market Intelligence, Argentina had 22 operational wind farms spread across the country by September 2016.

Since 2010, Argentina has had a revival of interest in the use of renewable energy sources (RES). In particular, with the GEN-REN plan, an impulse was given to the wind and solar energy systems in farm-type installations and biomass (ethanol or biodiesel) used in...

Argentina is on track to have 20 percent of its energy come from renewable energy sources by 2025, according to Energy Minister Javier Iguacel. What is the Argentine government doing to advance its clean energy ambitions, and what ...

BUENOS AIRES, Dec 23 (IPS) - With large projects held back by the economic crisis and lack of infrastructure, Argentina seems to be looking at an alternative path towards a more sustainable energy mix involving small renewable energy projects, promoted by environmentally aware industries, businesses and private users.

Undersecretariat of Renewable Energy Paseo Colón 171 - Piso 8 - Oficina 812 +54.11.4349-8033/8186 privadarenovables@minem.gob.ar Undersecretariat of Renewable Energy Ministry of Energy and Mining - MINEM Argentine Republic

Argentina has set a goal of establishing 20 percent renewable energy by 2025 and has committed to reducing carbon emissions by 30 percent by 2030. To meet these goals, the government, with support from the World Bank Group, has ...

Chilean holding company Empresas Copec SA has made an investment in Ampere Energy SL, a Spain-based

Ampere for renewable energy Argentina

manufacturer of residential battery storage systems, acquiring a 13.5% stake and a seat on the board of directors. ... Renewables Now is a leading business news source for renewable energy professionals globally. Trust us for comprehensive ...

The Port stands on the cutting edge of the transition to renewable energy. The Argentina Renewables project will generate significant capital investment in the region and create jobs in servicing project infrastructure and plant operations. This development at Argentina aligns with provincial and federal initiatives in reaching net-zero emissions ...

The purpose of this new energy regime was to ensure that energy generation from renewable sources accounted for 20 per cent of Argentina's total national energy consumption by the end of 2025, with intermediate targets of 8 per cent by the end of 2017, 12 per cent by the end of 2019, 16 per cent by the end of 2021, and 18 per cent by the end ...

Amp Energy is a well-established global energy transition development platform, which delivers renewables, battery storage, and hydrogen at scale, together with proprietary AI-enabled grid ...

Argentina now has 220 operational renewable energy plants, totalling 5,961 MW, which can meet the electricity demand of over 6 million homes, the energy secretariat stated. Together, renewables -- wind, solar, bioenergy and small hydro of below 50 MW -- accounted for 18.6% of electricity demand in April, 12.4% in May, and 14.3% in June.

In search of solutions to growing shortages, the government seized on Argentina's still largely untapped, but potentially vast renewable energy sector and created an ambitious program called RenovAr (renew in Spanish). By 2016, the country's share of renewable energy stood at less than 2 percent of the power mix.

taxes to renewable energy projects. Province of Misiones - Law 4439 of 2008 establishes a provincial framework for the promotion of renewable energy and creates a fund for the promotion of renewable energy and biofuels. Province of Neuquén - Law 2596 of 2008 provides additional USD 1/MWh² for 15 years.

Washington, DC and Toronto, Canada - Global investment firm The Carlyle Group (NASDAQ: CG) today announced a strategic growth investment through a \$374 million commitment to Amp Solar Group, Inc. ("Amp Energy" or the "Company"), a Canadian-based global energy transition platform.. Amp Energy is a global renewable energy infrastructure ...
