

# Amprius battery Burundi

What makes Amprius batteries so powerful?

Amprius says the batteries' impressive performance is due to its silicon nanowire anode technology.

Will Amprius be able to make EV batteries more widely?

Amprius is in talks with major automakers about adopting this tech more widely. To meet market demand, Amprius has agreements in place for over 500 MWh of contract manufacturing. This means they're ready to scale up and get these batteries into as many EVs as possible.

How many charge cycles does Amprius have?

Amprius' internal tests are also showing progress toward achieving 1,000 charge cycles. USABC is a subsidiary of the United States Council for Automotive Research (USCAR), the collaborative technology company of Ford, General Motors, and Stellantis.

How fast does Amprius charge?

In addition, the new ultra-high-power cell boasts an ultra-fast charging (UFC) capability, reaching 80 percent charge in approximately six minutes or less, transforming mission-critical operations with swift turnaround times. Amprius remains dedicated to providing batteries that are a key component required to advance electric mobility.

What's new at Amprius?

Amprius celebrates expansion of its state-of-the-art silicon nanowire anode megawatt hour manufacturing line. Over 90 attendees enjoyed key partner presentations on the impact of Amprius' next-generation technology and an exclusive factory tour for a preview of Amprius' future.

Are Amprius SiMaxx EV batteries good for EV drivers?

Amprius' new SiMaxx cells hit an impressive 360 Wh/kg in energy density - far beyond the USABC's target of 275 Wh/kg. What does that mean for EV drivers? Simply put, longer range without a bulkier battery. Plus, these cells have a power density of 1200 W/kg, meaning more efficient energy delivery.

FREMONT, Calif. - March 23, 2023 - Amprius Technologies, Inc. is once again raising the bar with the verification of its lithium-ion cell delivering unprecedented energy density of 500 Wh/kg, 1300 Wh/L, resulting in unparalleled run time.

June 20, 2024 - Amprius Technologies, Inc. today announced a strategic initiative to rapidly increase the global production capacity of its SiCore™ offering through new manufacturing partnerships. ... has signed agreements with several contract manufacturers to secure over 500 MWh of production capacity for its SiCore battery and is engaging ...

Amprius" Next-Generation Battery Technology Recognized in the "Impact" Category. FREMONT, Calif.--(BUSINESS WIRE)-- Amprius Technologies, Inc. ("Amprius" or the "Company") (NYSE: AMPX), a leader in next-generation lithium-ion batteries with its Silicon Anode Platform, was honored in Fast Company's 2023 Innovation by Design Awards in the ...

Amprius" 40 Ah high-performance cells were selected due to their higher energy density, safety features, and competitive costs. These larger format cells are specifically built ...

Unmatched SiCore Battery Performance Increases Aerial Vehicle Range and Cost Efficiency . FREMONT, Calif. - April 9, 2024 - Amprius Technologies, Inc. ("Amprius" or the "Company") (NYSE: AMPX), a leader in next-generation lithium-ion batteries with its Silicon Anode Platform, today announced it has been selected by AIBOT, a trailblazer in the ...

Innovations in battery manufacturing, such as roll-to-roll production, lead to more cost-effective production of high-power density batteries. This lowers production costs and increases the accessibility of advanced battery technology. Using nanomaterials and nanostructures in battery components enhances ion transport and electron flow. This ...

Awarded \$1.9 Million Contract for its 500 Wh/kg SiMaxx(TM) Cell to Support Department of Defense Applications. FREMONT, Calif.--(BUSINESS WIRE)-- Amprius Technologies, Inc. ("Amprius" or the "Company") (NYSE: ...

FREMONT, Calif. - August 3, 2023 - Amprius Technologies, Inc. is continuing to pioneer innovative battery technology with its newest ultra-high-power-high-energy lithium-ion battery. Leveraging the company's advanced material system capability, the cell achieves an impressive discharge rate of 10C while delivering 400 Wh/kg energy density, a major advancement for ...

Next-Generation Cell Redefines Electric Mobility with Unrivaled Power and Energy Efficiency. FREMONT, Calif.--(BUSINESS WIRE)-- Amprius Technologies, Inc. ("Amprius" or the "Company") (NYSE: AMPX), a leader in next-generation lithium-ion batteries with its Silicon Anode Platform, is continuing to pioneer innovative battery technology with its newest ultra ...

Amprius Technologies continually explores new ways to improve battery technology and manufacturing processes. Amprius" batteries have established breakthrough performance with new cells up to 500 Wh/kg. ... Amprius is not responsible for and expressly disclaims all liability for damages of any kind arising out of the use, reference to, or ...

Amprius to Host Ribbon Cutting Ceremony at Its Fremont CA Headquarters for the New MWh Silicon Nanowire Battery Production Line. FREMONT, Calif.--(BUSINESS WIRE)-- Amprius Technologies, Inc. ("Amprius" or the "Company") (NYSE: AMPX), a leader in next-generation lithium-ion batteries with its Silicon Anode Platform, today announced it is hosting ...

Custom Battery Packs Deliver Unparalleled Energy Density for Electric Mobility Applications. FREMONT, Calif.--(BUSINESS WIRE)-- Amprius Technologies, Inc. ("Amprius") (NYSE: AMPX), a leader in next-generation lithium-ion batteries with its Silicon Anode Platform, today announced a strategic partnership with Stafl Systems, a pioneer in advanced battery ...

Complementary to the Silicon Nanowire Platform (Under the New Product Platform SiMaxx TM), the New SiCore TM Platform Offers up to 400Wh/kg and as many as 1,200 Cycles. FREMONT, Calif. - January \_\_, ...

A cracking, swelling battery anode is, of course, a safety concern. Physical damage can cause a thermal runaway, pressurizing the battery cell casing. Results can be anything from a smoking battery to a full explosion. Amprius" batteries do not face the same swelling and cracking issues, thanks to the nanowire technology that stabilizes the ...

These forward-looking statements include, but are not limited to, statements regarding the ability of Amprius to meet the demands from existing customers and to engage new customers, the ability and timing of Amprius to commercialize its new cells, the timing and ability of Amprius to build its large-scale facility and expand its manufacturing ...

The All-New Amprius 500 Wh/kg Battery Platform is Here FREMONT, Calif. - March 23, 2023 - Amprius Technologies, Inc. is once again raising the bar with the verification of its lithium-ion cell delivering unprecedented energy density of 500 Wh/kg, 1300 Wh/L, resulting in unparalleled run time. At approximately half the weight and volume of state-of-the-art, commercially available ...
