Who is Belectric Inc?

Belectric Inc is part of the BELECTRIC Group, the world technology leader in the development, construction and Operations & Maintenance of large-scale solar power and energy storage projects constructing globally over 300 solar PV power plants with 2.0 GWp PV capacity.

Who is Belectric Solar & battery?

The sale concerns subsidiaries of Belectric Solar & Battery, which operate as a provider of third party solar engineering, procurement and construction (EPC) as well as operations and maintenance (O&M) services. The battery storage business is not included within the transaction and will remain part of the RWE Group.

Is Belectric a part of elevion group?

As a part of the Elevion Group, Belectric will continue to operate as a developer and service provider in the solar sector. Both parties agreed to keep the financial terms of the transaction confidential. RWE Renewables has agreed to the sale of Belectric's European and Israeli businesses to the Elevion Group B.V. (Elevion).

Why did RWE sell Belectric?

Currently, the company is in the process of realising solar plants with a total capacity of 1.2 GW. The decision to sell the third party service provider Belectric aligns with RWE's solar strategy, which sees itself as an asset owner with a clear focus on project development and operation. The construction of solar plants will be contracted.

How many photovoltaic projects has Belectric completed?

o In total, the Belectric Group has completed more than 400 photovoltaic projects with a capacity of more than 4 GW and provides services on 2.2 GW of power plants. o Belectric GmbH and other European parts of Belectric will become one of the flagships of Elevion Group's expansion in the solar market.

How many GW of solar power does Belectric have?

It was the first in the world in the solar sector to achieve an installed capacity of 1 GW through EPC construction. In total, the Belectric Group has completed more than 400 photovoltaic projects with a capacity of more than 4 GW and provides services on 2.2 GW of power plants.

As an innovative, medium-sized solar energy company, BELECTRIC's vision is to make a clear contribution to the energy transition. We foster the acceptance of solar energy and strive for climate protection. Team spirit, respect, and philanthropy are just as much a part of our corporate culture as professionalism and sustainability.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

Andorra: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
