Who is Robustel?

Robustel is the world's famous manufacturer of industrial quality solutions for the IoT and M2M markets. Get the latest on innovations, product launches, success stories and news of IoT applications. Robustel is a leading Industrial IoT device and solution provider.

Does Robustel support 5g/4g/lte?

Robustel's Industrial Edge Computing Gateways support 5G/4G/LTE networks to provide seamless wireless network connectivity with high bandwidth, low latency and high reliability for IoT devices and sensors. Robustel 5G IoT Routers bringing the Next Generation Cellular Connectivity for IIoT (Industrial Internet of Things).

What is Robustel embedded 3G/4G/LTE router?

Robustel Embedded 3G/4G/LTE Router is a kind of cost-effective small footprint board with Ethernet WAN, Wifi WAN and 4G WAN interfaces that can all be independently configured in the powerful onboard Operating System - RobustOS.

Does Robustel have IoT certification?

Robustel's R1510 industrial router has secured IoT communication certification from Japan's NTT Docomo following successful DAPT lab testing. This milestone solidifies Robustel's global presence and expands customer options. Robustel is pleased to announce a strategic partnership with Bulletproof.

What makes Robustel a reliable wireless router?

Robustel's range of ruggedized Routers are industrial-grade, easy to deploy and optimized for reliable wireless connectivity for M2M/IoT applications. Robustel's range of IP67 outdoor gateways are integrated with LoRaWAN wireless communication and cellular network technology. This provides wireless long-distance data transmission.

What is Robustel r1511 LTE gateway?

Robustel's R1511 LTE gateway has been adopted for Smaregi's 'Net Anshin BOX' service. It automatically switches to an LTE connection whenever the store's main internet line experiences issues, ensuring seamless store operations. Robustel's R1511 gateway enables this switch smoothly, maintaining stable connectivity.
