

Are solar photovoltaic panels easy to be stolen

Are solar panels stolen?

By way of example, in August, solar panels worth approximately £10 500 were stolen from an energy farm in Northamptonshire. Solar panel theft is not limited to large scale and commercial solar farms either - homes in remote areas are also vulnerable, with thieves reportedly swiping panels from people's roofs. Why?

Can you stop solar panel thieves?

Solar panel thieves - they're out there, but you can stop them. It's only natural that the growing popularity of solar panels has drawn the attention of less savoury types. Put a standard 3.5kWp solar PV system on your roof and you're basically advertising £5-6k worth of kit.

How to protect solar panels from theft?

You can use mechanical locks on the mounting equipment to prevent the panels from being easily removed. The locks should be custom-designed for solar panel installation and tamper-resistant. Installing an alarm system that triggers a loud noise if the panels are tampered with can help deter potential thieves.

Is solar theft a problem in the UK?

Rural theft has long been an issue in the UK. It is a sinister practice, with repercussions that are as much emotional, as they are commercial. After all, for a small farm, solar panels are a huge investment. Not only that, but if solar theft is not brought under control, it will delay the country from reaching its net zero goals.

What should I do if my solar panels are stolen?

Ensure your homeowner's insurance policy covers your solar panels in case of theft. Some solar panel owners choose to install GPS tracking devices on their panels, allowing them to be tracked and located if stolen. Ensure your solar panels are professionally installed.

Can a PV module be stolen?

There are also two other key factors that affect the potential for PV module theft: PV systems have experienced dramatic growth all over the world - from inner cities to rural villages. A stolen PV module has value in resale dollars and also as a source of power for small appliances.
