

Argentina solar options for homes

What's going on with solar in Argentina?

CREDIT: Cauchari Solar BUENOS AIRES, Dec 10 2020 (IPS) - The unprecedented growth of renewable energies in Argentina over the last three years has borne its greatest fruit: the Cauchari solar park, with nearly one million photovoltaic panels and 300 MW of installed power, which was connected to the national power grid on Sept. 26.

Should Argentina invest in solar energy?

If Argentina were able to stabilize its economy and provide better incentives for solar, investors would be more apt to support renewable energy projects. However, the lack of residential distributed generation projects is hindering mainstream solar adoption.

Is Argentina a good country for solar energy?

But they are not the only ones. "Argentina is a large country, with great potential for solar energy in the north and wind energy in the south," economist Julián Rojo of the General Mosconi Argentine Institute of Energy, a non-governmental research organisation, told IPS.

How many solar panel installers are there in Argentina?
