Image: TIME. Emit Solar provides three types of solar installations designed for small, medium, and even large houses. Choices include a 4kWp system that's claimed to allow for monthly TNB bill savings of RM234/month, a 6kWp option that allows savings of RM344/month, and 10kWp for larger houses which is estimated to save you RM493/month.

Eg, this package will give generate 700 kWh per month, it costs RM 20k. If the system doesnt meet the requirement of 700 kWh (either due to shade from trees, angle of roof, poor design), they will make the output higher by adding more panels until it works. ... TNB tariff structure. Currently, solar panels power generation is sold back to TNB ...

If the energy generated is not fully used, you can supply the excess to TNB grid. When solar energy is insufficient or at night when there is no access to sunlight, TNB will supply the energy to you. By generating your own electricity, you will use less energy from TNB. Therefore, this will help to lower your electricity bill.

Package 3, with a total quota of 1,000MW, comprises rooftop or ground solar power plants, with a permitted generation capacity of 30MW to 500MW. Package 4, with a 50 OMW quota, com-prises floating solar power plants, with per-mitted generation capacities of 1 OMW to 50 OMW. The solar power plants to be developed
