

# Armenia segen solar

Armenia is on the brink of a renewable energy revolution as the construction of its largest solar power plant, Masrik-1 is well underway in the Gegharkunik region. Spearheaded by the Shtigen Group, this ambitious ...

Segen solar rejected my warranty claim on a pylontech battery that gave trouble 5 years before the warranty expired, with the excuse of "that he is overloaded" and blamed my inverter. I had it tested by someone else and his finding was that the BMS was faulty. Am I right in saying the overload has nothing to do with the inverter?

OverviewPotentialPhotovoltaicsThermal solarObstaclesSee alsoExternal linksSolar energy is widely available in Armenia due to its geographical position and is considered a developing industry. In 2022 less than 2% of Armenia's electricity was generated by solar power. The use of solar energy in Armenia is gradually increasing. In 2019, the European Union announced plans to assist Armenia towards developing its so...
