With free, publicly available tools, like the National Renewable Energy Laboratory's (NREL) Renewable Energy Atlas and Marine Energy Atlas, anyone anywhere in the world can access the data they need to start planning their clean energy future. Now, new features in the Marine Energy Atlas make it even easier for communities to decide how and ...

Atlas operates on an expansive network of private dirt lease roads in the Permian, allowing them to serve some of the most critical energy infrastructure in the United States. Automation is core to Atlas's business model - in addition to our work together to develop autonomous trucks for their fleet, they are nearing completion of the Dune ...
