

Where is the new wave energy power station in Gibraltar?

In May,2016,EWP and the Government of Gibraltar held an official opening ceremony of the newly constructed wave energy power station on the east side of Gibraltar. Now,at a former World War II Ammunition Jetty,sits the initial 100KW of a 5MW power station.

Why does Gibraltar need a new power plant?

This secures Gibraltar's energy supply economically, environmentally and sustainably. The associated closure of the three old plants represents the largest measure taken to improve air quality and reduce greenhouse gas emissions. The new power plant consists of six engines; 3 of which run on natural gas and 3 of which are dual fuel.

Does Gibraltar need a cleaner liquefied natural gas (LNG)?

Until recently,Gibraltar's energy needs were 100% powered by marine diesel - so,a better solution was urgently needed- one that switches from diesel to cleaner liquefied natural gas (LNG).
