AURORA BATTERY not only cares about the quality of the products, but also cares about the services of the products. Customer needs ...

Explore the labyrinthine of once-secret corridors and rooms at Batterie Mirus, a hidden gem of military history which has recently undergone restoration work by Festung Guernsey. Spread over an area of approximately 1km x 0.75km, Batterie Mirus was the largest battery built in the Channel Islands during the Second World War and originally ...

Note: In order to run self-consumption calculations in Design Mode, you will need to click on Simulate upon making any changes. Aurora calculations assume a 2% degradation in battery capacity per year. Selecting a Battery. Select the desired battery model from the dropdown and enter the quantity. Aurora will then calculate the:

Situated on high ground above L'Eree, on Guernsey's west coast, and spread over an area approximately 1km by 0.75 km lies the remains of Batterie Mirus. The largest guns to be emplaced on the Channel Islands.

As we approached Clarence Battery the ground levelled off and the pain diminished so I got the nod that it was okay for me to spend a few minutes nosing around the 18th century defensive position.. Clarence Battery formed part of the outer defences of Fort George, itself a fortification designed to protect St Peter Port. The fort was commissioned in 1779 and the gun battery we ...

Batterie Mirus, originally known as Batterie Nina, is situated in St Peter and Saint Saviour, Guernsey. It was established during World War II and consisted of four 30.5 cm guns, making it the largest battery in the Channel Islands at the time.

The battery was constructed from November 1941 and through the first half of 1942, and was the largest

Aurora battery Guernsey

battery in the Channel Islands, the guns having a maximum range of 51 km. Although the guns were removed in the early 1950s, the reinforced concrete structures and associated positions remain intact.
