Home energy rating assessments. The Residential Efficiency Scorecard is a home energy rating assessment which can save you money by checking how energy-efficient your home and appliances are. Most homes will be eligible for ...

Melbourne, Victoria In 2021 EnergyAustralia moved to a brand-new head office at Two Melbourne Quarter, 697 Collins Street, Melbourne. It's conveniently located across the road from Southern Cross station, with top-class end of trip facilities, on-site café and plenty more.

Investing upfront in energy-efficient products pays off with significant long-term savings. Efficient electric alternatives are now cheaper to run compared to gas. Take advantage of the discounted appliances. You can receive rebates or discounts on equipment and appliances that help save energy and reduce greenhouse gas emissions.

Here is Kogan Energy's plan on our database for Victoria. These costs are based on the Citipower energy network in Melbourne but prices may vary depending on your circumstances. This comparison assumes general energy usage of 4000kWh/year for a residential customer on a single rate tariff.

Concessions If you require an interpreter, please call us on 1300 622 718. As a customer, you may qualify for various concessions administered by EnergyAustralia on behalf of the VIC Government. Eligibility conditions

vary and are subject to change from time to time. These concessions may be applied partially or to a whole bill based on your eligibility during a billing ...

Powering Victoria and beyond, 24 hours a day, 365 days a year. Nestled in Victoria's Latrobe Valley on the traditional lands of the Braiakaulung people of the Gunaikurnai nation, Yallourn Power Station - or simply Yallourn, as the community and we call it - has been providing both state and nation with electricity since 1974.

Renewable energy provided 39.4 per cent of Australia's total energy generation in 2023, a 9.7 per cent increase from 35.9 per cent in 2022. That's a remarkable achievement given renewables represented just 17 per cent of Australia's electricity in 2017, when strong investment really took off. Combined large and small-scale renewable capacity
