

Aviva energy Mauritania

Does Mauritania use biomass?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Mauritania: How much of the country's energy comes from nuclear power? Nuclear energy - alongside renewables - is a low-carbon energy source.

Can Mauritania generate low-cost electricity and hydrogen through electrolysis?

Renewable Energy Opportunities for Mauritania finds that the country could deploy these resources at scale to generate low-cost renewable electricity and hydrogen through electrolysis.

Why should you invest in Mauritania?

Investing in Mauritania can offer a wide range of opportunities, particularly in the energy sector. With major gas discoveries and large-scale renewable energy projects in development, the country is poised for significant growth in this area.

Could renewable generation capacity improve Mauritania's mining operations?

The report's analysis finds that expanding renewable generation capacity in Mauritania could improve the sustainability of mining operations, which currently represent close to a quarter of the country's GDP. These operations are energy-intensive, and mines currently rely predominantly on fossil fuels for their electricity supply.

Should Mauritania invest in wind energy?

A major investment in wind energy infrastructure in Mauritania could not only provide a significant source of renewable energy for the country, but also make a significant contribution to global efforts to reduce reliance on fossil fuels and combat climate change.

Is Mauritania ready for the largest green hydrogen production project in the world?

Driven by this momentum, the country has signed a memorandum of understanding for the implementation of the largest green hydrogen production project in the world, which Mauritania intends to develop in partnership with CWP Global, an Australian renewable energy development company led by an American founder and CEO.

At Aviva, our purpose is to free people from fear of uncertainty, enabling them to get on with their lives with confidence. We are a leading composite insurer with a respected global brand. Across the world, we protect our 34 million customers and the things that are important to them.
