

Back up solar system Zimbabwe

How do solar inverters work?

Inverters are now very advanced to the point of some of them having apps and communication tools that allow you to monitor the state of your solar system and manage the parameters of the system. For those that love tinkering this is a very exciting feature. You can even see if you have electricity even when you are not at home.

Do I need a deposit to install a solar system?

All systems require 30% deposit. We design solar systems for every home or business using tried and tested equipment. We don't just sell you solar; we provide you with solutions that will last for years. We promise to visit every site before installation to make sure we understand and address all your needs.

Does solar installation work?

Whether commercial, home on or off-grid, we have a proven method of installation that works. We have installed more than 2000 solar systems across the country and that experience has become proficiency. Our process has been tried and tested. And as new technologies emerge, we continue to find better ways of giving the best value.
