

# Backup generator for home Germany

Which brand makes the best home backup generators?

Generac is the most popular brand of home backup generators in the United States. Founded in 1959, these robust and long-lasting products have stood the test of time and continue to expand their reach in homes across America and the globe. Seven out of ten generators sold in America are made by Generac.

How to install a home backup generator?

To install a home backup generator, the installer should consider several factors such as the required wattage of the generator, the best location, the fuel line, transfer switch, and electrical connections. Testing the generator is also necessary to ensure it is ready when power is low.

Why should you buy a whole house generator?

Whole house generators can help you disconnect from the grid entirely or keep your appliances running during extended power outages or emergencies when a portable or standby generator would otherwise fail. In order to take advantage of those benefits, it's crucial you get the right generator for your unique situation and application.
