

Bahrain all cell technologies

Who is allcell technologies?

About AllCell Technologies AllCell Technologies is a leader in high performance energy storage solutions used in electric vehicles, micro mobility, aviation, robotics, stationary storage and maritime applications.

Who are Beam Global & allcell?

Beam Global and AllCell have, separately, provided charging and high-powered energy storage solutions to micro-mobility, land based EVs, aviation, maritime and recreational customers as well as stationary and energy-security platforms, for both government and Fortune 100 companies.

Will Beam Global's acquisition of allcell reduce cogs?

Energy storage is crucial to Beam Global's value proposition and battery systems currently account for approximately 30% of Beam Global products' bills of materials. The strategic acquisition of AllCell will significantly reduce COGS through margin recapture and value engineering.
