

Ball camera solar bracket clamp

What is a 360 camera clamp mount?

This 360° camera clamp mount is designed for photography studio video shooting. Bottom clamp maximum open distance is 60mm; Best loads is 3.3 lb (1.5KG).

How do I use a suction cup camera?

If you want to record scenes from multiple views outside a vehicle, attach a simple suction cup camera mount to the camcorder and onto a flat surface of a moving object for cool effects. To get stable perspectives of your adventures, choose a bracket lock that clamps securely to an object.

What is a Super Clamp & how does it work?

High Stability: Super clamp is an integrated embedded design, so it has higher stability and is not easy to deform. There are non-slip pads on the clip, which will not damage your items and improve the fixing force.

What can ulanzi Super Clamp do?

It can firmly clamp the desktop/tripod/bike/wood pole/armrest/umbrella/hook/shelf/table/cross pole, etc. You can absolutely trust the ulanzi super clamp. Wide Range of Applications: Indoors, it can clip photography lamps. Outdoors, you can use it on bike handlebars. Shooting in rainy days, it can clip an umbrella.

What is the maximum open distance of a Super Clamp?

Bottom clamp maximum open distance is 60mm; Best loads is 3.3 lb (1.5KG). Multifunction: the maximum open distance of the super clamp is 2.3 inch (60mm), which can help you fix the accessories on 0.59 inch (15mm) rods, for DJI Freely Movi 25mm and 30mm rods, plate, shoulder rig, bike handles, and so on.
