

What is Pixii modular energy storage?

With cutting-edge technology, the Pixii modular energy storage solution gives you a wide range of functions, allowing you to unleash your growth potential.

Does Pixii have a certification?

The certification is mandatory for all installers and is required to offer our extended product warranty. Our interactive sessions provide the knowledge you need to install, maintain and commission our Pixii Home residential Battery Energy Storage System (BESS).

What is a pixiibox 48V bi-directional inverter-rectifier?

Endowed with a unique modularity thanks to the unparalleled compactness (3 KG /3.3 kVA) of the Pixiibox 48V bi-directional inverter-rectifiers, the latter are at the heart of the Pixii Powershaper system and provide several functions: Discharge of batteries to the network and/or to downstream consumers.

Are pixiiboxes hot-swappable?

Pixiiboxes can be hot-swappable (for maintenance), configured in single or three-phase on the fly, which is unique on the market today.

Which batteries are compatible with pixiibox inverters?

Pixiibox inverters not only allow wide compatibility with a range of 48V CANBUS lithium batteries (LG CHEM, Polarium), but also the support of 48V batteries without BMS (LTO Zenaji batteries, etc.) thus allowing great flexibility in the choice of possible configurations.

Which batteries can be used with the Powershaper?

We offer the Powershaper by default with Polarium LFP batteries (SLB 100-145-5LFP) of 5 kWh in 3U format. The Powershapers are based on a single hardware platform, the Pixiibox. The latter, in addition to its inverter-charger-rectifier functions, can interface with solar in AC Coupling (Fronius Primo /Symo inverter OR SMA Sunny Boy /STP):
