Contact Little Green Energy Today: The Solar PV, Battery Storage & EV Charging Experts!

This trend is likely to continue; according to GlobalData, the market for battery energy storage is forecasted to more than double from \$6.91bn currently to \$14.89bn by 2027. The outlook. As we look towards the promise ...

EV battery technology is rapidly evolving and as it develops, the battery lifespan is likely to increase. They'll also become cheaper, smaller and lighter, which will help reduce the overall cost of an electric vehicle. When an electric car battery's performance drops to 70% or less, it's "second life" revs into action.
