

Bb john solar Canada

Will Saint John get a solar project?

The aim for a solar project comes after Saint John Energy's recent investment in the Burchill wind project in Lorneville. But Saint John isn't the only New Brunswick community to get in on solar. For the past year and a half, Shediac has run a large solar farm that keeps two government buildings in town net zero.

Does New Brunswick have a solar energy incentive program?

Businesses can now use the Federal Tax Provision for Clean Energy Equipment to fully expense their solar system. This means a CCA rate of 100% and the abolishment of the first year rule. There are at least 4 other energy incentive programs available in New Brunswick.

How much does a solar system cost in New Brunswick?

To calculate this, you just need to know the size of the system in units of kW. The rough calculation is simple. Just take the size of your system and multiply it by the \$3.31/watt - the average cost of installing a solar system in New Brunswick. You can calculate your total system costs with the following equation:
