

Montel Group brings together experienced energy sector professionals from across Europe, providing customers with everything they need to track energy markets in real-time and assess future developments. See how their journey has brought us all together, developed their company culture and why we're always looking for the next opportunity.

Montel is the world's friendliest and most accessible provider of energy market insights and analytics. We deliver energy intelligence to increase market transparency, help users identify opportunities and play our part in the green transition, all with a human touch.

About Montel Founded in 1989, Montel is a fully independent news and data provider with no positions in the markets covered. Ever since its inception the service has been first to provide professionals in the wholesale power sector and related commodities markets with price-driving news, real-time data and technical analysis.

(Montel) The EU needs an action plan, roadmap and timeline for phasing out Russian gas imports by 2027 as desired in response to the war in Ukraine, according to its energy ministers. Reporting by: Siobhan Hall

Montel has reported several times in recent months on mounting evidence that Russian wood pellets were being repackaged and recertified in Turkey for onwards shipment to European destinations. Falling incidence. But such incidences may have dropped as EU authorities and buyers become more stringent in their background checks.

Whether you're interested in the latest news, price forecasts, or using our respected data for your own modelling, there's something for you inside the Montel Group. This is why we've pooled our services on this Montel Group website, making it easier for you to pick and choose whichever service you need from a reliable source.
