

Belgium 200w solar panel price in

Are solar panels a good investment in Belgium?

Installing solar panels in Belgium offers an attractive return on investment in terms of energy and cost savings. Even without green certificates, owners of photovoltaic systems can recoup their investment in just a few years. To further optimize their financial savings, here are three key ways:

How much do solar panels cost?

The price of solar panels has dropped significantly in recent years. In addition, you can receive a subsidy from the government for photovoltaic panels. The average solar panel price is around EUR1.26 per watt peak (Wp), although the exact price depends on a number of criteria:

Where can I install solar panels in Belgium?

For the installation of solar panels on the ground, on a protected building or in other regulated cases, you will have to contact your municipality. There are several companies active in Belgium that install solar panels.

How much subsidy can I get for solar panels in Flanders?

Currently the maximum amount of subsidies you can receive for the instalment of solar panels in Flanders is EUR750. In 2024 the maximum subsidy will decrease to EUR375. The subsidy amount is always limited to 40% of the total investment costs including VAT, as stated on the invoices. What Is The Yield Of Solar Panels In Belgium?

How much energy is self-consumption in Belgium?

On average for a household in Belgium, it is estimated that between 30% and 40% of the energy produced is self-consumed. This means you'll buy less electricity from the grid, generating savings on your annual electricity bill. For a company, the rate of self-consumption depends very much on the company's profile.

Why do solar panels cost so much?

If you require a more complex installation, for example because your roof is difficult to access, the costs may be higher. Fluctuations over time: demand for solar panels can fluctuate depending on the season or a particular period. During periods when solar panels are in high demand, the price may rise.
