Green People"s Energy for Africa - Senegal Green People"s Energy (GBE) is an initiative created by the German Federal Ministry for Cooperation and Development which offers citizens of Sub-Saharan Africa innovative technical and financial support for the acquisition of decentralized renewable energy systems, and in particular photovoltaic systems. The initiative ...

Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product. It effectively measures how efficiently a country uses energy to produce a given amount of economic output. A lower energy intensity means it needs less energy per unit of GDP.

Green People"s Energy aims to improve the conditions for decentralised energy supply in rural areas in selected African countries, involving both citizens and companies. To this end, we are working in nine countries across sub-Saharan Africa, including Mozambique. In addition to our country-based measures, we support cross-national charitable projects and strengthen ...

Ethiopia and Russia today signed an intergovernmental agreement on cooperation in the peaceful uses of nuclear energy during the Russia-Africa Summit in Sochi.& nbsp;The document was signed by Rosatom Director General Alexey Likhachov and Ethiopian Minister of Innovation and Technology Getahun Mekuria.;
