Which institutions are working to provide access to affordable energy in Benin?

Several institutional frameworks in the energy sector in Benin are working to provide access to affordable energy in the country. The ME is the biggest institution of the energy sector, responsible for the management of the energy sector and in charge of the implementation of RE projects.

Does Benin have a good energy sector?

This paper analyzed the energy sector in the Republic of Benin, a developing country in West Africa that has many problems in meeting the needs of its population for almost all sectors over the last decade, specifically, between 2010 and 2018, in terms of production, consumption, and imports.

How can Benin increase local production?

However, the government of Benin is making serious efforts to increase local production through national projects, specifically the Solar Energy Promotion Project (PROVES) and the Renewable Energy Development Program (PRODERE). The principal RE sources in Benin are hydro energy, biomass energy, wind energy and solar energy.

Who is enerview solutions?

Enerview Solutions provides electric vehicle (EV) charging stations to customers and is dedicated to bringing the latest and most reliable charging solutions to the market. Our goal is to provide our customers with the tools they need to make the switch to electric driving. Enerview Solutions is a leading provider of solar installations.

Does Benin have a good sanitation system?

It is worth mentioning that, despite strong population growth in Benin in recent years, there has been slower growth in sanitation service indices, which grew from 13.6% to 16.5% from 2010 to 2017, with Benin ranked eleventh among the thirteen countries in the West African zone.

Is Benin a consumer or importer of oil?

Analyses of the West African Economic and Monetary Union (WAEMU) show that Benin is the largest consumer of oil products (26.6%), and an electricity importer (25.6%), despite being home to only 9% of the total WAEMU population (more than 123 million inhabitants) in 2018.
