Is energy a real opportunity in Bermuda?

Energy is very expensive in Bermuda, with electricity costing approximately 40 cents a kilowatt-hour, almost 20 cents of which is attributed to fuel. The company sees an opportunity to do in Bermuda what it is doing in the US Midwest in terms of replacing fossil fuel energy generation with renewables.

What is our vision for Bermuda energy?

Our vision is an efficient Bermuda powered by affordable renewable energy. Our mission is to help every home and business in Bermuda reduce their energy bills and greenhouse gas emissions through the use of energy efficient and solar energy technologies.

What does Berkeley Energy do?

Berkeley Energy works with its partner companies to provide engineering, management, and financial support, whilst offering the ability to act as a bankable sponsor for renewable power projects. Our approach is hands-on, asset-first, technically orientated. We look to achieve our returns by holding equity in well-conceived and constructed projects.

Why is Bermuda so dependent on fossil fuels?

Historically like other modern developed countries around the world, Bermuda has depended on fossil fuel for energy production for electricity, heating, cooling and transportation.

What makes Berkeley Energy unique?

Berkeley Energy's technical and operational capabilities are complemented with dedicated financing, legal, and structuring professionals with experience in private equity, infrastructure, and renewable energy transactions.

What is Bermuda's 'preferred portfolio'?

The "preferred portfolio" proposed in the Regulatory Authority of Bermuda's 2023 Integrated Resource Plan would add an extra ten years to the life of the Belco utility plant's East Power Station engines, and would deliver "85 per cent renewable energy by 2040", cutting carbon emissions by 82 per cent by 2043 compared with 2022 levels.

The mission of the Berkeley Power and Energy Center (BPEC) is to further research and education in the power and energy area through engagement with industry. We seek to create an ecosystem where leading academic researchers and top industry partners can share and exchange ideas in pre-competitive research areas, advance the frontier of technology, and [...]
