What is Energy Vault SA?

Energy Vault SA offers an energy storage technology utilizing fundamental principles of science to deliver a storage solution that's as compassionate to the planet as it is efficient to build and operate. The Energy Vault solution utilizes the same fundamentals of physics and kinetic energy as pumped hydro but replaces the water with custom

Who makes Energy Vault?

Energy Vault SA manufactures renewable energy equipment. The Company offers gravity-based grid-scale energy storage system that combines low-cost composite bricks and mechanical crane technology with software that autonomously charges and discharges energy. Energy Vault serves customers in Switzerland.

How did Energy Vault get funding?

In 2019, Energy Vault secured funding from Cemex before going on to secure \$110m of Series B funding to become the first energy storage investment of the SoftBank Vision Fund, and won Fast Company's World Changing Idea Award for transformative utility-scale energy storage.

Does Energy Vault have a battery energy storage system?

The last bit of recent Energy Vault news is that it has successfully installed a large (69MW /275MWh) battery energy storage system at the Stanton Energy Reliability Center in southern California. The battery installation is now being operated at full capacity by Energy Vault's partner in this project, Wellhead.

Why should you choose Energy Vault?

With our vast global network in leadership, management, and contribution, Energy Vault is well positioned to meet the large and currently unmet demand for sustainable and economical energy storage for renewable energy generation worldwide.

What is Energy Vault's Calistoga project?

Energy Vault views the Calistoga project as a model for the company's future utility-scale hybrid storage system deployments, especially in the California market. The facility will be ready for use in June of this year.

Energy Vault is a global energy storage company specializing in gravity and kinetic energy based, long-duration energy storage products. Energy Vault's primary product is a gravity battery to store energy by stacking heavy blocks made of composite material into a structure, capturing potential energy in the elevation gain of the blocks. When demand for electricity is high, these blocks are lowere...
