

Battery energy storage developer Eku Energy has reached a financial close for 250MW/500MWh battery energy storage system (BESS) in Canberra, the Australian Capital Territory (ACT). The 2-hour duration Williamsdale BESS will utilise Tesla Megapack BESS units and connect to the Evoenergy electricity distribution network. It will be registered to ...

The groundbreaking ceremony for the battery energy storage system (BESS) project was attended by officials from SSE Renewables, principal contractors Morrison Energy Services, and the energy storage supplier Sungrow. Sungrow Europe president Lewis Jindong Li stated: "We are proud to be a key partner in the Monk Fryston project. ...

As previously reported by Energy-Storage.news, the Williamsdale BESS will use Tesla Megapack units, a solution being deployed at several utility-scale BESS projects in Australia, such as the 1,600MWh Melbourne Renewable Energy Hub in Victoria and the state-owned 1,200MWh Stanwell BESS in Queensland.

Global renewable energy investment company Bluestar Energy Capital has announced the launch of Noveria Energy, a project development platform focused on European BESS. In a press release, Bluestar Energy ...

The project's primary implementing agency is Belize Electricity Limited, the country's main utility and network operator. It comes shortly after nearby Honduras progressed the reform of its electricity market to enable the deployment of energy storage at scale on its grid. Wärtilä; completes generators-plus-BESS on US Virgin Islands

NextEra Energy Resources 400MWh co-located project. The second largest project in terms of BESS size is a proposal from NEER who is seeking regulatory approval to construct a 100MW solar farm co-located with a 100MW/400MWh BESS located across a 941-acre site approximately 4 miles east of St. Cloud in Benton County.

A location plan map for the Loch Fergus BESS project, one of those to have been approved in the last fortnight. Image: Locogen. A roundup of news from the UK BESS market, with developers ILI, Aukera, and Apatura ...

Institutional energy investment firm EIG has today (7 October) announced the launch of a new battery energy storage system (BESS) developer, Fidra Energy. Fidra Energy is headquartered in Edinburgh, Scotland, and aims to have 10GW of BESS projects across the UK and Europe by 2030. So far, Fidra Energy has a 3.15GW development pipeline in the UK.

The system consists of 24 Tesla Megapacks. Image: Chugach Electric Association. US-based utility Chugach

Bess electricity Falkland Islands

Electric Association has successfully commissioned a new 40MW/80MWh 2-hour duration battery energy storage system (BESS) in Anchorage, Alaska. The US\$65 million BESS consists of 24 Tesla Megapack units and is located near Chugach's ...

The group is the majority shareholder of Octopus Energy Group, which has a retail electricity arm (or tentacle) in the UK that is now the country's biggest utility provider, and alongside renewables and BESS development, it ...

On Monday, Aquila Clean Energy EMEA started building a 50MW BESS, while fellow developer MW Storage announced two new energy storage projects totalling 40MW, covered by Energy-Storage.news. In August, another fund, L& G NTR Clean Power (Europe) Fund, acquired a 50MW/110MWh project from developer and engineering, procurement and ...

Ingrid Capacity has teamed up with Locus Energy to deploy 196MW of battery energy storage system (BESS) capacity in southern Sweden. The partnership will see the installation of 13 new BESS sites, enhancing Ingrid's development and optimisation capabilities. Go deeper with GlobalData.

Deutsche Bahn is the train network operator of Germany, and a major user of electricity. Image: Deutsche Bahn. Steag renewables subsidiary Iqony and Fluence will deploy a 50MW/200MWh BESS project in Germany, part of which will be contracted under a PPA with train network operator Deutsche Bahn.

In other recent Arizona utility BESS activity, Tucson Electric Power (TEP) is currently developing a build-own-operate 200MW/800MWh BESS project, while Arizona Public Service (APS) signed a 20-year tolling agreement of its own with developer Strata Clean Energy for a 255MWh/1,000MWh BESS. Energy-Storage.news" publisher Solar Media will host ...

From Thursday 1 December 2022 the price of electricity will increase from 29p to 39p per unit for all consumers. Pre-paid cards will then cost as follows: o £5 card will increase to £ 10.26

In other recent Arizona utility BESS activity, Tucson Electric Power (TEP) is currently developing a build-own-operate 200MW/800MWh BESS project, while Arizona Public Service (APS) signed a 20-year tolling ...
