

A 10MW/50MWh battery energy storage system (BESS) spread across two substations in Slovenia has started a trial and testing period. The BESS projects are located at the Okroglo and Pektre substations and ...

By adopting the Act on the prohibition of placing certain single-use plastic products on the market in the Republic of Slovenia in 2021, Slovenia implemented the Directive (EU) 2019/904 of the European Parliament and of the Council of 5 June 2019 on the reduction of the impact of certain plastic products on the environment.

Slovenia is an all-year destination. Every season has its appeal, but the best time to visit depends on your interests and priorities. The annual tourism season gets rolling in spring, as high-elevation mountain passes reopen to car traffic and the country basks in the first of what will be many warm, sunny days ahead.

As is so often the case with Slovenia, even its best places to swim are impossible to pigeonhole. They defy typical definitions. Sure, the county's 29 miles (47km) of coastline between Croatia and Italy offers more ...

Slovenia earned a hard-fought draw against Denmark in their first Group C outing. The point gives them an advantage over their opponents here but Serbia won't be disheartened by their first game. The Serbs were narrowly beaten 1-0 by England. They were able to restrict Gareth Southgate's side to very few chances and managed to get the game out of ...
