The project will be co-located with a 100MW/200MWh BESS, and the Egyptian Electricity Transmission Company will acquire power from the upcoming Scatec project for 25 years. With both projects announced simultaneously, both AMEA Power and Scatec have made claims to developing the first utility-scale BESS project in the country.

The US BESS market appeared to suffer a blip in Q1 2024 - installations were down as well as revenues for most technology providers focused on the US - what would you attribute this to? I can't say whether these phenomena are specific to Q1 2024, but the industry is still immature and experiencing growing pains.
