Best solar markets Argentina

How many solar projects are there in Argentina?

Under the RenovAr Program, the country plans to add 10,000 MW of renewable power to the grid by 2025. To realize this target,58potential solar projects, with a combined capacity of 2,834 MW, were submitted in the first renewable energy tender, further driving the solar PV market. Argentina's solar energy market is relatively underdeveloped.

How much solar energy does Argentina produce in 2021?

With solar energy generation in Argentina increasing by more than 100-fold in just five years, the country generated approximately 2.19 TWhof solar energy in 2021, up from 16.4 GWh in 2017, representing a 63% increase in solar energy production in Argentina.

Which solar projects are coming to Argentina in 2022?

For instance,in February 2022,the state-owned oil and gas utility firm,YPF,started constructing the 300 MW Parque Solar Zonda project. The country has several solar PV projects in the pipeline and planning stages, which are expected to significantly boost the growth of the solar energy market in Argentina.

Why is the Argentinian government investing in solar energy?

However, due to the declining costs of solar, the Argentinian government is investing small amounts in solar energy, which is expected to result in gradual growth in the sector. For instance, in February 2022, the state-owned oil and gas utility firm, YPF, started constructing the 300 MW Parque Solar Zonda project.

Why is solar technology becoming more accessible in Argentina?

This cost reduction has made solar technology, especially solar PV technology, more accessible in Argentina, with a total solar PV installed capacity of 1,060 MW in 2021. The growing electricity demand is also a major factor driving the market's growth.

Is solar power a viable option in Argentina?

More than half of Argentina's territory receives annual average sunlight over 3.5 kWh/m2,making solar PV a technically viable option to match the higher electricity demand. In 2021,solar power accounted for more than 12.7% of total renewable power in Argentina, with the majority being generated through solar PV.

9 Argentina Solar Energy Market Overview 9.1 Key Industry Highlights 9.2 Argentina Solar Energy Historical Market (2018-2023) 9.3 Argentina Solar Energy Market Forecast (2024-2032) 10 Argentina Solar Energy Market by Technology 10.1 Solar Photovoltaic (PV) 10.1.1 Historical Trend (2018-2023) 10.1.2 Forecast Trend (2024-2032)

The solar energy market share in Argentina is expected to increase by 53.73 terawatt-hour units from 2021 to 2026, at a CAGR of 70.64%. This solar energy market in Argentina research report provides valuable insights
