

Bluewater energy services Estonia

Who is Bluewater Energy Services?

Bluewater Energy Services B.V. is a services operator in the oil and gas industry. The Company designs, develops, owns, and operates floating production storage and offloading units under medium and long-term service agreements. Bluewater is also involved in the delivery of single point mooring systems.

What services does Bluewater provide?

We also provide operational and logistic management and support for offshore Production and Energy Systems. For offshore production and transfer of renewable energy, Bluewater has developed a Floating Wind TLP, a Tidal Energy Converter Platform, Solar Matresses and the Electrical Buoy.

Who is Bluewater mooring & energy production?

At Bluewater we use our decades of experience to provide safe and reliable offshore solutions. We take pride in being one of the technological leaders for offshore mooring and energy production systems. We take care, think dynamically, are inspired to make impact and are committed to deliver.

What mooring systems does Bluewater offer?

Bluewater has developed some of the most innovative SPM solutions, including catenary anchor leg mooring (CALM) buoys and tower, internal and external turret mooring systems. Bluewater's tidal energy converter (BlueTEC) is an open-architecture floating support platform suitable for tidal turbines.

Since its foundation in 1978, Bluewater has built a technological lead specialising in design, development, lease and operation of tanker-based production and storage systems, and has become a leading provider of innovative Single ...

This floating tidal energy solution offers significant advantages by accommodating most of the critical equipment above the waterline (where it is dry and protected), allowing for easy access for inspection and repair; resulting in low operation and maintenance costs. ... Bluewater offers the platform, turbine, power cable and mooring system as ...

About the role We are seeking a skilled Data Engineer to support Bluewater in harnessing the power of data to drive business success. ...

Bluewater energy services Estonia

Bluewater has developed a system to produce electrical power near-shore by harvesting tidal energy with a floating tidal energy converter. Building on our decades of experience in mooring and transfer systems offshore, we have successfully designed and field demonstrated a floating, tidal energy converter "Bluetec".

Since its foundation in 1978, Bluewater has built a technological lead specialising in design, development, lease and operation of tanker- based production and storage systems, and has become a leading provider of innovative Single Point Mooring systems. ... The Bluewater Tidal Energy Converter (TEC) Tidal currents are predictable, resulting in ...

About Bluewater Energy Services B.V. Since its foundation in 1978, Bluewater has built a technological lead specialising in design, development, lease and operation of tanker-based production and/or storage (FPSO, FSO) systems, and has become a leading provider of innovative Single Point Mooring (SPM) systems. The company has designed ...

Bluewater Energy Services B.V. ("Bluewater") Aoka Mizu Charter Extension. Bluewater is pleased to announce that its affiliate Bluewater (Aoka Mizu) B.V., the owner of the Aoka Mizu FPSO, has signed a contract with Hurricane GLA Limited, the UK based oil and gas company and operator of the Lancaster Field, for an extension to the Bareboat ...

Bluewater's highly insulated vacuum pipe-in-pipe subsea pipelines, called VI-PIPs, circulate LNG from the storage facility to the tower base. The CLT is suitable for 0.1 to 1 MPTA LNG import or export, making it for example suitable for LNG feedstock import to onshore power plants.

Bluewater Energy Services B.V. About The core business of Bluewater is to design, engineer, construct, install and deliver Floating Production, Storage and Offloading (FPSO) systems, Floating Storage and Offloading (FSO) systems and Single Point Mooring (SPM) systems.
