All BOS systems have identical connection points for solar photovoltaic (Solar PV) panels and AC loads. It takes hardly a few hours to set up the BOS system one for hybrid solar power, which makes them suitable for large scale installation and fast and easy maintenance. Thanks to its modular design, components can be adapted to any requirements.

The LE300 Smart Battery System is the perfect addition to an existing lead-acid leisure battery system in an RV or motorhome. With simple plug and play installation, a second battery is added and more capacity is available for the daily loads powered by the LE300, while the AGM or gel battery is kept at a high state of charge (SoC), effectively preventing sulphation and deep ...

The BOS LE300 smart battery system is a fully scalable lithium extension solution to add capacity to lead-acid batteries. Its intelligent battery management system allows an easy Plug & Play instalation and

prolongs the lifespan of both ...

Marlene Henkel: BOS Balance of Storage Systems AG is an innovative tech company based in Ulm, Germany that founded in 2014. The CEO and co-founder is Benjamin Seckinger.
