Jan Grimbrandt, grundare och VD Boson Energy SA: "Wallhamn-projektet kommer att ge oss att demonstrera alla aspekter av vår vision om cirkulär sektorkoppling. Det kommer att visa den autonoma och dynamiska potentialen i vårt 24/7/365-system för lokal produktion av el och grön molekyler - att fasa ut fossila ...

Boson Energy's EUR450m (\$490m) project at the Swedish port envisages melting down municipal waste in a plasma-assisted gasification process -- in which material is heated to temperatures of up to 1,700°C -- to ...

Local sustainable Hydrogen is key to move away from polluting and inefficient combustion-based energy - towards clean and efficient energy security and electrification. Boson Energy's project development model aims to eliminate compression, storage, and transport of H2 and rather deliver it as H2-powered heavy-duty fast charging that can ...
