To create a more enabling environment, the GoB set up an energy regulator, the Botswana Energy Regulatory Authority (BERA), which began operation in September 2017. This has sparked interest in renewable energy development within the private sector. Botswana also has wind and coalbed methane potential that have not been fully explored.

Directrice de la Transformation chez Altea Energy · Je suis directrice de la transformation et membre du board d'Altea Energy, société d'assistance technique dans le domaine de l'énergie.

Depuis 10 ans, j'ai mené des dizaines de projets de transformation dans des secteurs variés (énergie/ télécoms/ tech/ manufacturing), en tant que consultante puis en interne.

Renewable energy refers to bio-energy, solar energy, wind energy and any other as may be specified by the Authority. Renewable sources of energy are no longer viewed as alternative sources of energy but as the real future where all should be given their clean nature, replaceability, availability in vast amounts (e.g. solar in Botswana) and the fact that Botswana ...
