The island is named after Jean-Baptiste Charles Bouvet de Lozier who first spotted it in January 1739. He was on the hunt for a large southern land mass and assumed Bouvet Island was part of it. At the time he was unable to navigate around it, so was unaware that it was an island. He named it Cap de la Circoncision.

A WordPress Commenter on Slogans for Solar Power Companies; Archives. April ...

The elusive goal of fusion energy may be a lot closer to reality thanks to a new type of superconducting magnet. Or so claim researchers with Commonwealth Fusion Systems (CFS), who unveiled the 2-meter-long, 1-meter-wide, D-shaped electromagnet at an online press conference today and said it had produced a magnetic field roughly 500,000 times Earth's ...

Isla Bouvet La isla Bouvet o Bouvetøya es una de las islas subantárticas, un lugar deshabitado cubierto de hielo a 2.600 km al sur-suroeste de Ciudad del Cabo.Es la isla más remota del mundo: cualquier otro lugar en un radio de 2.000 km está igualmente desolado, como la ...
